WORK EXPERIENCE

WAREHOUSE MANAGEMENT SYSTEM

Responsible for the entire development process and deployment of a Warehouse Management System for a pharmacy, which has features such as barcode compatibility, management of sales, funds, and products. Technologies used: HTML, CSS, JavaScript, PHP, and MySQL.

TO-DO APP

To-do App with authentication and tasks grouped by projects, which can be created, read, updated, deleted, and completed using Create-react-app, Axios, Nodejs, Express, Mongoose, and JSON Web Tokens.

PERSONAL PORTFOLIO

Serverless Personal Portfolio to show my projects, offer my services as a web developer and share content through my blog. This project was built with gatsby to increase page speed, styled-components, graphql, and strapi.

EDUCATION

ONLINE COURSES

UDEMY, COURSERA, FREECODECAMP.

I usually improve my skills by studying through official documentation and online courses. I have taken some courses like javascript moderno guia definitiva and node: de cero a experto, I also use resource such as reactjs.org, developer.mozilla.org, javascript.info, and freecodecamp.org

BACHELOR DEGREE EXPECTED 2022

UNIVERSITY OF LOS ANDES (ULA)

I am a 5th-semester student of system engineering at the University of Los Andes. I have taken some courses related to computer science where I have learned things like algorithms, complexity, calculus, computer architecture, and problem-solving.

CERTIFICATES

- JavaScript Algorithms and Data Structures Projects**
2020
Freecodecamp
